## Hair Grew 4 Inches In A Few Weeks

A St. Louis Lady Increased the Length of Her Hair Four or Five Inches in a Few Weeks With This Simple Home Recipe.

A well-known St. Louis lady, after using a simple recipe on her hair which she mixed at home, made the following statement: "Without exaggeration, my hair has grown four or five inches." The recipe she used is as follows, and any lady or gentleman can mix it at home: To a half pint of water add 1 oz. of bay rum, a small box of Barbo Compound, and 3/4 oz. of glycerine. Apply to the scalp two or three times a week with the tips of the fingers. It not only promotes the growth of the hair, but removes dandruff, scalp humors and prevents the hair from falling out. It darkens streaked, faded, gray hair and makes it soft and glossy. These ingredients can be obtained from any drug store at very little cost and mixed at home.—Adv.

### MONTPELIER

City Will Borrow Money to Pay Expenses, Heated Discussion in Meeting.

By a margin of two votes, the citizens of this city at a special meeting last evening, voted to borrow \$3,500 from the water department fund to tide the city over the month of February. There is some money due to come in and enough to come out so the only cash on hand which is to work next month was estimated at \$353. The meeting was a warm one and various expressions of displeasure were heard, condemnation of the city council for buying the auto truck, dissatisfaction with the present kind of city government and assertions that the borrowing of the money from the water fund would in the end make higher taxes to get the money back. Eighty-two men, who felt in this way, voted against the proposition, and on the other hand 170, who felt that no matter what might have been the mistakes of the past year, the city help must be paid and the business of the place kept up, voted to borrow the money. The number of votes necessary to carry the motion was 168, so it passed by the narrow margin of two. City Attorney B. E. Bailey had advised the council that no bills could be authorized by that body unless there were funds in the treasury to meet them. About 250 men were present at the meeting.

A bachelor party was given Robert Fisher of Burlington at the Knights of Columbus hall in honor of his marriage, which is to take place to-morrow. Mr. Fisher was formerly of Montpelier.

He is now well on the way to recovery.

The lecture given by Julius Caesar Napphe last evening in the lecture course was very interesting and instructive. Wilson Against Exemption of American Ships from Canal Tolls.

Washington, D. C., Jan. 28.—How to dispose of the Panama canal tolls question was the subject uppermost in the discussion about the capitol yesterday when the president's position was asserted to be that the provision of the Panama canal act which grants toll exemption to American coastwise vessels is in violation of the Hay-Pauncefote treaty.

Before definite action is taken in Congress a public statement from the president is awaited.

Senator Page of Vermont, Republican member of the committee, in discussing the tolls question, said he always had been opposed to the exemption of American ships from tolls but expressed the belief that the majority of the canal committee would take a firm stand to uphold the law as it stands.

### LONDON STRIKE NEAR END.

London, Jan. 28.—A speedy termination of the coal strike which has affected London since Jan. 21, when 10,000 coal carriers quit work, was forecasted in a resolution adopted by the men at a meeting yesterday, when they decided to resume work in the coal yards where the employers had consented to grant the increase of two cents a ton for loading coal demanded by the men, bringing their wages up to twenty cents a ton. As several of the largest London firms have agreed to this it is generally thought the others will be unable long to resist.

### Says Lovers Are Patronizing.

In the February Woman's Home Magazine, Anne Bryan McCall writes a tower room talk entitled "When Love Comes," in which she comments, as follows, on the sensations felt by people who for the first time find themselves in love:

"We are all pretty well agreed, I think, that whatever days of happiness may come to us in later life, the most shining days of our girlhood are those in which love comes to us. No others quite compare with them, and no other experience of youth compares with this experience."

"We are under a kind of spell. We know that others have loved before, loved quite as we love! We have heard much about love all our lives, have speculated about it since we were allowed to read novels or see love plays; yet when the experience comes to ourselves it comes with a shock of surprise. It is so much more wonderful than anyone has told us, so much more beautiful than anyone has led us to believe. So we begin to imagine that no one has ever loved quite as we love. It is a world new-created in which we find ourselves, and a unique paradise, amazing and beautiful and ours alone. So, even though we never speak it we bestow a kind of pity on all who are less fortunate in their love."

"Yet, however unique you or I may believe our particular experience to be, one fact stands out notable: love is old, one fact is old; not this form of it nor that, not one particularly experience of it or another, but love itself. And of love itself we know too little, oh, far too little, even those of us who believe that we love so exceedingly well!"

### By Young American Artist.

A young American artist, Charles S. Chapman, has not only illustrated but has decorated in a truly Japanese fashion the latest romance by John Luther Long (author of "Madam Butterfly"), "The Temple of the Countess Gods" in the February Century.

## MOTHER! IT'S CRUEL TO FORCE OIL OR CALOMEL INTO A SICK CHILD.

"California Syrup of Figs" Can't Harm Tender Stomach, Liver and Bowels—Children Love It.

Look back at your childhood days. Remember the "physic" that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and

bowels need cleansing, give "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it, that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow. It should be the first remedy given, as it always does good, never any harm.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.
